

LGBTI communities forum

Palliative care and planning for your care

PCA is joining with the National LGBTI Health Alliance to provide a forum on palliative care.

What do providers, consumers and carers need to know about decision making and planning for end of life in this community? How can we all work together to ensure palliative care is delivered where it is needed at the right time?

PCA has brought together a number of speakers with personal and professional interest in the area. Dr Richard Chye will offer an introduction to palliative care, while Kelly Morgan will provide insight into power of attorney, guardianship and advance care plans for the LGBTI communities. Dr Gavi Ansara will discuss the passport project.

Lunch will be provided.

To register, contact Heidi heidi@palliativecare.org.au
