

National Palliative Care Week
21–27 May

Matters of  and death

“Palliative care
changes
as people
change.”

Joanne

Palliative Care
Occupational
Therapist

Live as well as possible, for as long as possible.

Access to palliative care from the time of diagnosis can ensure the quality of life you deserve – whether that’s at home, in hospital, in a hospice or in residential aged care.

What does quality of life look like to you? Start the conversation today.
