

National Palliative Care Week
19–25 May

Matters of  and death

“It’s not about death,
it’s about **living to the
fullest with dignity.**”

Dr. Suharsha

Senior Palliative
Care Physician

**Palliative care is
more about life
than death.**

Palliative care allows people of all ages to focus on what’s important to them. Our skill and compassion supports people to live life their way until the very end.

**It’s your life.
We help you live it.**
